Counting activity

Maths – Number – Counting Activity

	Object 	How many?
		
		
		

Helicopter Rescue

Use the weblink below to play Helicopter Rescue.

<https://www.topmarks.co.uk/learning-to-count/helicopter-rescue>

Helicopter Rescue is a Mental Maths game with different sized number charts, and it is designed to help you identify and work with numbers up to 100.

Maths challenge 1

Add with Dice

What you will need...

- 2 dice
- pencil

What to do...

- ask your child to roll both dice and add the numbers together to find the total
- ask your child to say the addition e.g. $4 + 2 = 6$, and write it in the space below the correct answer e.g. 6.

Maths challenge 2

What numbers can you see on a car registration plate?

Which number is bigger?

Which number is smaller?

Can you add them together?

Count out the same amount in pasta pieces, blocks or beads.

Can you practise writing these numbers?

BD51 SMR

Positional Language: Where is Teddy?

Maths – Shape, Space and Measures – Positional Language

Where is Teddy? Cut out the labels and stick them next to the correct picture.

Make an Obstacle Course!

Obstacle courses can be a fun way to use positional and directional language, and a great way to get moving!

Can you make an indoor or outdoor obstacle course?

Draw it before you build it.

Describe the route using words such as **over, under, through, between etc.**

How long does your course take to complete?

Snakes and Ladders

You will need...

- The Snakes and Ladders game board
- A dice
- A counter per player

How to play...

1. Players take it in turns to roll the dice.
2. The player moves the counter the number of spaces shown on the dice.
3. If a player lands on a snake's head, the player's counter slides down to the square at the snake's tail.
4. If a player lands on the bottom of a ladder, the player's counter climbs up to the square at the top of the ladder.
5. The first player to reach 20 is the winner!

YOGA

Tadasana

Mountain pose

Step 1 Stand tall, with your toes touching and feet slightly apart. If it is more comfortable, you may keep your feet a few inches apart.

Step 2 Press your shoulders back, and straighten your arms beside your torso.

Step 3 Breathe deeply, and hold this pose for 5 deep breaths, or as long as you are comfortable.

Virabhadrasana

Step 1 Begin in Mountain Pose

Step 2 Step your feet wide apart and stretch your arms out to either side, palms facing down.

Step 3 Turn one foot, so it is pointing to the side, then bend your knee on that leg.

Step 4 Look beyond your fingertips for a 5 deep breaths.

Step 5 Straighten your front leg, then turn your toes back to facing forward.

Step 6 Now switch to your opposite side!

Childs Pose

Step 1 Kneel on the floor, touching your big toes together.

Step 2 Sit back on your heels, and separate your knees hip-width apart.

Step 3 Slowly bring your head down, and rest it on the floor in front of you.

Step 4 Rest your hands comfortably by your side.

Step 5 Relax and breathe. You can stay in this pose as long as you would like.

Marjaryasana

Step 1 Begin in Table Pose.

Step 2 Round your back towards the ceiling and look at your belly.

Step 3 Follow with Cow Pose for a gentle yoga flow.

BRAIN BREAK

Create a self-Portrait

You will need:

1. A mirror
2. Plain white paper
3. Drawing materials ie. a pencil, colouring pencils or crayons.

What to do:

- Spend some time analysing what you look like in a mirror. Tell your grown-up the different features that you can see, including more subtle ones e.g. your nostrils and eyelids.
- Place paper and drawing materials in front of you.
- Look at your features in the mirror and have a go at drawing them.

Flower Printing

<https://theimaginationtree.com>

You will need:

- a selection of flowers
- paint
- trays or containers
- paper
- pegs

What to do:

1. Cut the heads off the flowers, leaving a short amount of stem.
2. Pour some paint into the trays or containers.
3. Dip the flower heads into the paint.
4. Carefully print with the flower heads onto paper.

How to build a bottle basking shark

You will need:

- Washed out plastic bottle*  Remove any labels
- Sticky tape 
- Coloured paper or card  Try to use different colours
- Permanent marker pen 
- Scissors 
- Garden cane 
- A helpful adult

1

Ask an adult to help you to cut off the ends of the plastic bottle, and shape the shark's head.

3

Draw on eyes and gill slits.

2

Cut up the coloured paper or card into long strips of different colours and lengths. Tape to the back of the shark's head. You could have two layers, inside and outside

4

Ask an adult to help you to poke a hole through the top and bottom, and push a cane through, taping in place.

Take him for a swim!

*Use an old plastic bottle for this, and always recycle after use.

OPPOSITE SCAVENGER HUNT

primary  playground

- Find the opposite of something open.
- Find the opposite of something hot.
- Find the opposite of something hard.
- Find the opposite of something slow.
- Find the opposite of something short.
- Find the opposite of something clean.
- Find the opposite of something empty.
- Find the opposite of something big.
- Find the opposite of something sour.
- Find the opposite of something quiet.
- Find the opposite of something black.
- Find the opposite of something heavy.
- Find the opposite of something old.

Science: Minibeast Shadows

What to do:

Find a place in your home where you can make shadows. This might be your bedroom or living room, or you could set up a torch or a phone to shine light at a wall.

See if you can make some minibeast shadow shapes with your hands.

Can you make a spider shape with eight legs?

Can you make a long, thin caterpillar shape?

Can you make a butterfly shape with big, wide wings?

Can you make a rounded shape like a ladybird?

What other ideas can you think of?

Can you draw or take a photograph of your shadows to show us on

Evidence Me?

Create a Static Charge

Static Electricity

· WHAT IS STATIC ELECTRICITY

Static electricity occurs when there is a build up of electric charge on the surface of a material.

It is called static electricity because the charges don't move. The electricity we use everyday involves moving charges.

Static = Charge does not move or flow

Use the weblink below to watch a 'Simple Static Electricity Experiment for Children'.

<https://www.youtube.com/watch?v=7vibwnXvNww>

- Show your child how to generate a good static charge. You can create static by rubbing things together that lose electrons easily such as hair, wool and fur, with things that gain electrons easily such as plastic combs, inflated balloons, vinyl, styrofoam, and polyester socks.
- Also, keep in mind that the person who gathers the charge has to be the person to use the object. If someone else touches it, the static electricity will discharge, and you'll have to start from the beginning.

Physical Development

1. Find a smooth floor surface and use some masking tape.
2. Mark out lines approximately 30 centimetres apart.
3. Number each line using a post-it note or by writing on the masking tape. If you are outside, you can use chalk to draw and label the lines.
4. Take turns in gliding a plastic plate or rolling a ball and see how far it goes.
5. What number did you reach? What number did your opponent reach? Can you roll it further to get to the next number?

Odd one out!

What letter sound do these animals
begin with?

Which picture is the odd one out?

Can you write the names of the
animals?

Can you write any other words that
begin with the same letter as each
of these animals?

RHYMING SCAVENGER HUNT

primary playground

- Find something that rhymes with bee.
- Find something that rhymes with moon.
- Find something that rhymes with bear.
- Find something that rhymes with rock.
- Find something that rhymes with glue.
- Find something that rhymes with hose.
- Find something that rhymes with sub.
- Find something that rhymes with bug.
- Find something that rhymes with car.
- Find something that rhymes with fan.
- Find something that rhymes with gum.
- Find something that rhymes with fox.
- Find something that rhymes with ten.

World Book Day!

There are lots of book ideas and resources on the [World Book Day](#) website.

You can find an audio book and watch a video story by following these links:

<http://worldbookday.com/world-of-stories>

<http://worldbookday.com/share-a-story-corner>

Here are some other ideas:

- Draw or paint a picture of your favourite book cover or character - you could make it into a book-mark, or put your picture in the window for others to see!
- Ask your mum, dad, or other members of your family about the book they liked best when they were children. Or maybe they can remember a story or poem they heard at school?
- Go on a book scavenger hunt! Get out your books and comics and see if you can find:

Something with wheels

Something green

A character with a sad face

A character who is asleep

A character who is running

A bear

A monster

A dinosaur

A happy ending!

More World Book Day ideas:

- Make a story box:

Find an empty box. A shoe box is perfect! Put some things inside to create a story. You will need some characters or toys and some other interesting objects. And maybe some magic to fire your imagination!

You could decorate your box with pictures cut from comics, stickers, shiny paper, feathers - anything you like!

Then make up stories using the things in your box.....

- Make a story den:

Cover a couple of chairs with a sheet or duvet. Find your favourite books and cuddly toys, some cushions, and maybe a snack and a drink. Make it really cosy and have your own private story time!

- Make yourself into a story character

See what you can find in your home to turn yourself into a character. Sometimes you don't need a special costume! Try using hats, masks, scarves, blankets..... Or make a paper crown or a newspaper dress!

Happy World Book Day!

(And when we come back to school we will be celebrating World Book Day all over again!)
