

# Living Things & Their Habitats (Classification of Living Things) - Autumn 1 YEAR 6

Year 2	Year 4	Year 5	Year 6	
<ul style="list-style-type: none"> <li>Explore and compare the differences between things that are living, dead, and things that have never been alive.</li> <li>Identify that most living things live in habitats to which they are suited and describe how different habitats provide for the basic needs of different kinds of animals and plants, and how they depend on each other.</li> <li>Identify and name a variety of plants and animals in their habitats, including microhabitats.</li> <li>Describe how animals obtain their food from plants and other animals, using the idea of a simple food chain, and identify and name different sources of food.</li> <li>Notice that animals, including humans, have offspring which grow into adults. (Y2 - Animals including humans)</li> </ul>	<ul style="list-style-type: none"> <li>Recognise that living things can be grouped in a variety of ways.</li> <li>Explore and use classification keys to help group, identify and name a variety of living things in their local and wider environment.</li> <li>Recognise that environments can change and that this can sometimes pose dangers to living things.</li> <li>Construct and interpret a variety of food chains, identifying producers, predators and prey. (Y4 - Animals, including humans)</li> </ul>	<ul style="list-style-type: none"> <li>Describe the differences in the life cycles of a mammal, an amphibian, an insect and a bird.</li> <li>Describe the life process of reproduction in some plants and animals.</li> </ul>	<ul style="list-style-type: none"> <li>Describe how living things are classified into broad groups according to common observable characteristics and based on similarities and differences, including microorganisms, plants and animals.</li> <li>Give reasons for classifying plants and animals based on specific characteristics.</li> </ul>	
<div> <div>living</div> <div>not living</div> <div>never been alive</div> <div>food chain</div> <div>depend</div> <div>breathe</div> <div>grow</div> <div>move</div> <div>producer</div> <div>pond</div> <div>feed</div> <div>offspring</div> <div>healthy</div> <div>consumer</div> <div>woodland</div> <div>habitat</div> <div>micro-habitat</div> <div>environment</div> <div>carnivore</div> <div>herbivore</div> <div>omnivore</div> </div>	<div> <div>classification keys</div> <div>environment</div> <div>fish</div> <div>amphibians</div> <div>reptiles</div> <div>birds</div> <div>mammals</div> <div>vertebrates</div> <div>invertebrates</div> <div>name some invertebrates</div> <div>human impact</div> <div>name positive human impact</div> <div>name negative human impact</div> </div>	<div> <div>life cycle</div> <div>Reproduction</div> <div>sexual</div> <div>asexual</div> <div>germination</div> <div>pollination</div> <div>seed formation</div> <div>seed dispersal</div> <div>pollen</div> <div>stamen</div> <div>stigma</div> <div>plantlets e.g. spider plant</div> <div>runners e.g. strawberry plant</div> <div>mammal</div> <div>amphibian</div> <div>insect</div> <div>bird</div> <div>fish</div> <div>reptile</div> </div> <div> <div>eggs</div> <div>live young</div> </div>	<div> <div>Anthropod</div> <div>Cone</div> <div>Conifer</div> <div>Enchinodermata</div> <div>Fern</div> <div>Flatowrm</div> <div>Monera</div> <div>Moss</div> <div>Mould</div> <div>Needle</div> <div>Protista</div> <div>Spore</div> <div>Taxonomy</div> <div>Annelid</div> <div>Arachnid</div> <div>Carpel</div> <div>Crustacean</div> <div>Fungi</div> </div> <div> <div>Mollusc</div> <div>myriapod</div> <div>Organism</div> <div>Reproduc</div> <div>tion</div> <div>Species</div> <div>Stamen</div> <div>Cold-blooded</div> <div>Warm-blooded</div> </div>	

## EVOLUTION & INHERITANCE, Autumn 2, YEAR 6

Year 2-4	Year 6	
<p><b>Year 2</b></p> <ul style="list-style-type: none"> <li>Identify that most living things live in habitats to which they are suited and describe how different habitats provide for the basic needs of different kinds of animals and plants, and how they depend on each other. (Y2 - Living things and their habitats)</li> </ul> <p><b>Year 3</b></p> <ul style="list-style-type: none"> <li>Describe in simple terms how fossils are formed when things that have lived are trapped within rock. (Y3 - Rocks)</li> </ul> <p><b>Year 4</b></p> <ul style="list-style-type: none"> <li>Recognise that environments can change and that this can sometimes pose dangers to living things. (Y4 - Living things and their habitats)</li> </ul>	<ul style="list-style-type: none"> <li>Recognise that living things have changed over time and that fossils provide information about living things that inhabited the Earth millions of years ago.</li> <li>Recognise that living things produce offspring of the same kind, but normally offspring vary and are not identical to their parents.</li> <li>Identify how animals and plants are adapted to suit their environment in different ways and that adaptation may lead to evolution.</li> </ul>	
	<p>anomaly camouflage evolution extinction inherited migrate natural selection offspring variation classify]evidence model adaptation adapted</p>	<p>fossil habitat organism predator reproduction species</p>

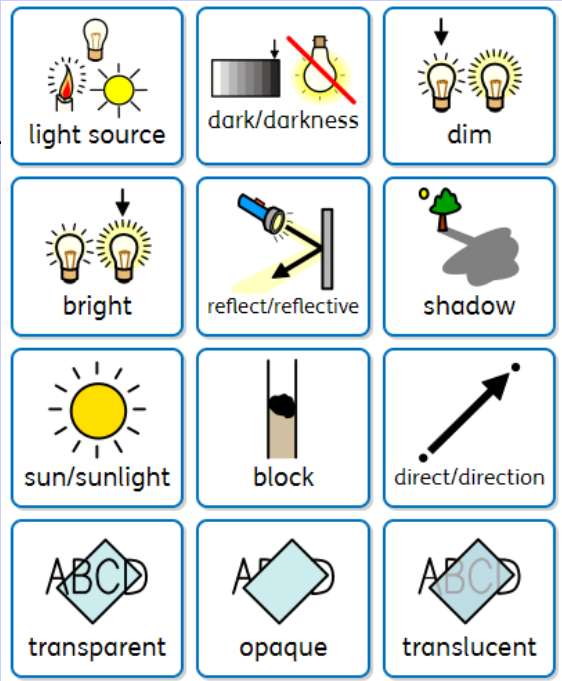

# LIGHT - Spring 1, YEAR 6

## Year 3

## Year 6

- Recognise that they need light in order to see things and that dark is the absence of light.
- Notice that light is reflected from surfaces.
- Recognise that light from the sun can be dangerous and that there are ways to protect their eyes.
- Recognise that shadows are formed when the light from a light source is blocked by an opaque object.
- Find patterns in the way that the size of shadows change.

- Recognise that light appears to travel in straight lines.
- Use the idea that light travels in straight lines to explain that objects are seen because they give out or reflect light into the eye.
- Explain that we see things because light travels from light sources to our eyes or from light sources to objects and then to our eyes.
- Use the idea that light travels in straight lines to explain why shadows have the same shape as the objects that cast them.
