Thirty, Year 5 children attended the trip, many from disadvantaged background. The school partnered another school from Lanzarote as part of a wider international partnership. The trip was rigorously planned, with a risk assessment trip undertaken in February.
- 2.2 Before the trip, introduction videos and Christmas cards were shared between the children at each school, so when the children met in person there was a sense of familiarity. During the trip the children learnt about volcanos and visited Timanfaya National Park; had Art lessons and visited Manrique house museum. The trips reinforced the learning and allowed the learning to come to life. There were significant opportunities for the children to use their Spanish learning.
- 2.3 There were three clear learning objectives:
 - Language Development
 - Cultural Capital
 - Personal Development
- 2.4 The trip ran smoothly and was a great success. The children showed significant emotional resilience. Those children that went on the trip shared their learning with the rest of the school through the sharing of work and assembly participation. There has been a lasting positive impact for the school community.
- 2.5 The results of the trip are being built into the Spanish Action Plan. The school will continue to develop the partnership with Lanzarote school and raising cultural understanding across the school community. The school will be looking to build upon this experience with the potential to run a similar trip again in the future.
